

The Capstone Project

for High School Students

The Missing Piece for Successful College Applications

College Application That Stands Out The Capstone Project is a great way to showcase what is missing in most college applications: intellectual curiosity, commitment to excellence, personal character, and leadership potential. It also provides an ideal subject for a unique and memorable personal statement.

A Unique Learning Experience The Capstone Project offers a unique learning experience for high school students while preparing them for admissions to highly competitive universities. Dedicated advisors help students choose a project topic. A project can be completed in two semesters or less.

The Capstone Project at Semita School

Showcase what universities are looking for

Demonstrated personal interest
Creativity
Intellectual curiosity
Uniqueness

Develop key skills for college

Research skills
Writing skills
Presentation skills
